

HOW PHARMACIES ARE MANAGING IN THE AGE OF SOCIAL DISTANCING

The rise of the current health crisis has many retailers feeling the increased pressure to keep their doors open, shelves stocked and shoppers/employees safe.

SITUATION

Pharmacies have been impacted with some of them limiting in-store traffic, closing their retail store and limiting prescription pickup to drive-thru and curbside only. Pharmacies are on the front lines delivering essential goods and services in an efficient manner.

Whether it be in-store, drive-thru or curbside, pharmacies are looking to reduce the exchange of personal items such as insurance cards, ID cards, loyalty cards and digital coupons and the time customers spend waiting in line. Pharmacies are now accelerating their evaluation and deployment of dedicated secondary scanning devices.

SOLUTION

Honeywell's lineup of barcode scanners offer a safer alternative, while allowing for increased productivity. Their ability to accurately read 1D and 2D barcodes the first time eliminates wasted seconds from every transaction, while minimizing unnecessary contact, and allowing for servicing of more customers. Honeywell's barcode scanners are simple to integrate with existing IT infrastructure, shortening ramp up times and getting critical tech in place to meet today's demand.

Handheld:

- Xenon Extreme Performance (XP)1952h-bf cordless, battery-free healthcare scanner with disinfectant-ready plastics to withstand effects of harsh cleaning agents while minimizing spread of infectious disease.
- Xenon Extreme Performance (XP) 1952g-bf cordless, battery-free general purpose scanner.

Xenon XP 1952h bf and Xenon XP 1952g bf scanners

Honeywell

Vuquest 3320g and Genesis 7580g scanners

Hands-Free:

- Vuquest 3320g, mountable scanner for retailers where scanning is conducted by the customer. This can also be integrated into self-service kiosks.
- Genesis 7580g hands-free presentation scanner ideal for a retail point of sale environment.

**MAKE INNOVATION WORK
WITHIN YOUR BUDGET**

Honeywell-as-a-Service is an offering that helps you navigate technology challenges. It provides you with an innovative approach to acquire software, hardware, and services and pay for them through a monthly payment with no upfront capital outlay.
